

PROFESSIONAL SUMMARY

Frontend Developer with more than 4 years of experience working in cross-functional agile teams, collaborating directly with designers, product managers, and backend developers to create high-quality user experiences. Experienced in translating Figma designs into production-ready interfaces, optimizing Core Web Vitals, and integrating REST APIs. AI-assisted development workflow with Claude Code and Codex integrated into the delivery cycle.

CORE SKILLS

Frontend: Vue 3 · Vue.js · Nuxt · React · Next.js · TypeScript · JavaScript · Tailwind CSS
UI and product: Figma · Storybook · Responsive interfaces · Component-based architecture · Core Web Vitals
Data and quality: Pinia · Zustand · REST APIs · Firebase · CMS integration · Vitest · Playwright · Supabase
Applied AI: Claude Code · Codex

PROFESSIONAL EXPERIENCE

Hotelverse

Frontend Developer

Nov 2024 - Dec 2025

- Built the multi-room booking and upselling experience, allowing guests to manage upgrades, room customizations, and special offers independently for each reserved room.
 - Created responsive, accessible React and TypeScript components for room selection, 3D/360° experiences, pricing, special offers, and front-desk recommendations.
 - Improved quality and maintainability through reusable Storybook components, internationalization, and Playwright/Vitest coverage for critical booking flows.
- React · Next.js · TypeScript · Zustand · Tailwind CSS · Storybook · Playwright · Supabase

Nezo Hub

Frontend Developer

Apr 2023 - Oct 2024

- Developed and maintained frontend features for SaaS and business applications using Vue 3, TypeScript, Nuxt, Pinia, and Tailwind CSS.
 - Built reusable UI components, integrated backend services, and improved state management across responsive production interfaces.
 - Contributed to dashboards, user flows, forms, authentication interfaces, and data-driven components.
- Vue 3 · Nuxt · TypeScript · Pinia · Tailwind CSS · REST APIs · Component-based architecture

Skipso, TopProperties, Kassebil, Moonflow Club, Traffice

Frontend Developer

Sep 2021 - Apr 2023

- Delivered frontend development for client projects across SaaS platforms, real estate products, community platforms, and marketing websites.
 - Built reusable Vue.js/Nuxt components, responsive interfaces, landing pages, dashboards, and custom UI flows based on product requirements and design references.
 - Collaborated with distributed teams to implement production-ready features, improve visual consistency, and connect applications with backend services, CMS platforms, and data sources.
- Vue.js · Nuxt · TypeScript · JavaScript · Tailwind CSS · REST APIs · Firebase · CMS integration · Responsive interfaces
